

COMUNE DI
REZZATO
Provincia di Brescia

Dear
MARIO ROSSI
P.zza Vantini, 21
25086 REZZATO (BS)

Dear residents, dear users,

Though the official data will not be available before April, we are glad to inform you that the **2010 separate garbage collection in the Municipality exceeded 70%**.

This considerable accomplishment, achieved due to the joint effort of all residents, means that we will surpass the 65% separate garbage collection objective three years before the deadline set for 31st December 2010 as provided for by Legislative Decree 152/06. Failure to meet the aforementioned deadline by the municipalities shall lead to penalties in terms of rates.

Regarding 2011, services have been subjected to a few modifications summarized further in detail in the annexed leaflet. If you have not received the environmental calendar ("ecocalendario"), you can collect it at the municipal library or at the environmental office otherwise you can download it directly from the Municipal webpage (www.comunerezzato.it).

According to these modifications there will be three weekly collection for the perishable products in the hottest months; no garbage collection on Thursdays; a quicker collection due to early collection starting from 6 am.

Meeting time, days and waste deposit requirements are crucial to the smooth operation of the service and clean town.

Special care to emptying the non-separated garbage container. Variations will also concern the amounts which shall reduce and correspond to the actual average disposals of the users in 2010 and the cost for each extra disposal shall be reduced. As mentioned severally, the high number of disposals available in 2010 was related to the introduction of the service.

The Mayor
Enrico Danesi

Councillor for environment
Marco Apostoli
